Dear Mr. Woodley:

As required by Executive Order 12322, the Office of Management and Budget has completed its review of the Army Corps of Engineers' final feasibility report and integrated environmental impact statement for a flood damage reduction project in the Licking River Basin, Kentucky.

Our review concluded that your recommendation for the Licking River Basin project is consistent with the policies and programs of the President. The Office of Management and Budget does not object to you submitting this report to Congress.

Sincerely,
